

ADOTEX WATER-BASED WARNISH

PRODUCT DESCRIPTION

It is a water-based pure acrylic wood varnish.

PRODUCT FEATURES

| | |
|---|---|
| Transparent structure | Protects the natural appearance of wood |
| Protective and decorative | Non-yellowing |
| Protection against sunlight, mold, fungi and bacteria | Forms a protective film coat on the surface |
| Penetrates into the wood | Flexible structure |

AREA OF USE

It can be used on all soft and hard interior, exterior wooden surfaces, doors, windows, wooden garden furniture and other wooden materials.

APPLICATION

Surface Preparation: The surfaces should be cleaned of grease and oil stains, sawdust, old paint and varnish. The surfaces should be roughened with light sanding and made sure they are dry.

Application: The water-based varnish should be applied in 2-3 coats with 4 hours apart, and in order to obtain a homogeneous color, care should be taken to make sure that it is applied parallel to the direction of pores in the wood.
